

Sustainability Problems

Evaluation of "Don't Worry" Presentation and Wiki Post

Name _____

1. Is the collage striking, unpredictable and memorable?
2. Does the collage have a caption that explains it, briefly articulating the main point of the presentation?
3. Does the text effectively convey the significance of the problem focused on, and how it indexes a need to worry about environmental sustainability?
4. Does the text provide compelling supporting detail – on the magnitude of the problem, on stakeholders, etc.?
5. Does the text indicate the consequences of not addressing the problem focused on?
6. Does the text or supporting links suggest how the problem could be fixed?
7. Does the presentation demonstrate in-depth engagement with its (at least one) academic references -- beyond the abstracts?
8. Do supporting links provide additional, useful information on the problem?
9. Is the on-line presentation effectively organized?
10. Are there appropriate citations throughout, for images as well as for information and quotations in the text?

Was the oral presentation compelling, well organized and well timed (at five minutes)?
